

New Crochet Books

—We have just added to stock a new shipment of instruction books covering everything connected with fancy work—24 numbers to select from—priced at 10c, 15c and 25c. (Notion Counter)

Prices will advance when our present stock of Hoosier Cabinets are sold

—The next shipment after our present stock is sold, must be sold at higher prices. This is due to the increased cost of all raw materials entering into their manufacture—it need not take you many minutes to decide, once for all, whether you intend to buy now, or later, after prices go up. —And you are deciding, remember, whether you will save many dollars and miles of necessary steps that you now take daily in a kitchen.

And Now Comes a Sale of SILKS You'll Surely Attend

Sale Starts Tuesday Morning

—In the stocks of a store the size of this, there are always patterns and qualities that disappoint—don't sell as we think they should. This department has been looked over thoroughly—and all such that we think ought to be sold are going to be sold—and they're priced in a manner that will be effective. —Interest in this event promises to run unusually high because of the quality of the silks and the extra special values—Many will make an effort to be on hand early Tuesday morning, to enjoy the fruits of early selection.

HALF PRICE

GEORGE HULL SUED FOR MANY SHARES OF BIG COPPER CONCERN

Stockholders of Hull Copper Company Petition Court to Stop Sale of Company to United Verde Interests

PRESBURY, July 29.—Demanding that 5,000,000 shares of the capital stock of the Hull Copper Company, alleged to be unlawfully and wrongfully claimed and voted by George W. Hull, be turned over to a receiver appointed by the court, first action in one of the biggest suits ever started in Yavapai county was taken in the filing of the complaint by Attorney J. E. Russell, for the plaintiffs, late Saturday afternoon.

The plaintiffs, William H. Kemp, George O. Bowman, Benjamin F. Walton, Andrew B. Tarbett and John H. Page, are stockholders of the Hull Copper Company and name as defendants in their suit The Hull Copper Company, a corporation; George W. Hull, Mary A. Hull, S. F. Denison, Wil L. Clark, Charles W. Clark, W.

A. Clark and the United Verde Copper Company, a corporation. It is estimated that the 5,000,000 shares of the Hull Copper Company stock, which the defendants ask to be returned to the company's treasury and cancellation of same on record be made, if such of said stock may appear to be rightfully issued, it worth more than \$1,000,000.

In the complaint it is asked that George A. Hull and Mary Hull deliver over said stock above such an amount as the mine and mining properties are worth. It is further asked that a temporary injunction be issued upon the filing of the complaint enjoining George W. and Mary Hull from disposing, assigning, or transferring any of the stock of the Hull Copper Company. Temporary injunction is also asked in restraining George W. Hull from proceeding with the action regarding the superior court entitled George W. Hull vs. The Hull Copper Company.

In asking for a receiver, the complaint asks that the defendant, George W. Hull, be required to account for all funds received by him from the sales of stock of the Hull Copper Company and for all funds expended or disbursed or claimed to have been disbursed by him.

The complaint also asks that George W. Hull, Wil L. Clark, C. W. Clark, W. A. Clark, and the United Verde Copper Company be required to dis-

cover and set forth the true facts regarding any proposed or completed sale or transfer, by the defendants, George W. Hull, or his interests.

ATHLETES ON BORDER TRACK MEETS FAIL

Lack of interest, due in a large measure to the fact that many prominent athletes are at the border with their various regiments, is given as the reason for the cancellation of the Pacific Northwestern Association track and field meet this year. Portland, Seattle and Tacoma were, in turn, offered the event and it was successively rejected, and no further effort will be made to run it off.

Reports from Southern California are to the effect that the surf fishing never has been better than it is now and heavy baskets have been the rule. Corbina of four and five pounds and croakers running as high as nine pounds are reported. Barracuda, yellowtail, silversides, rock bass and bonita are all running well and advising from both the mainland and island fishing waters tell of excellent catches. That the conditions are satisfactory is best attested by the fact that the fish and game commission's Southern division office has issued a record number of anglers licenses this season. More than 14,500 of these have been taken out.

A. S. & R. GIVES UP LEASE ON THE MINNIE MINE OF E. G. BUSH

Guggenheim Company Refuses to Continue Work and Property Goes Back to the Original Owners

TUCSON, July 29.—Although the American Smelting & Refining Co. has given up the Bush-Baxter mine, they are still interested in the Twin Buttes District, having taken a lease on the Morgan mine from the Twin Buttes Mining & Smelting Co., recently. Exploration work is being done on the 350-foot level. The Morgan produced the coin with which the Twin Buttes railroad was paid for, and more a million and more dollars—but it has lain idle for several years owing to the exhaustion of visible ore. The shaft is deep for this region, about 900 feet. The lower levels are under water and no attempt will be made, at least for the present, to unwater them. On the Minnie, the original name of

the mine released by the A. S. & R. Co., E. G. Bush has taken hold of operations. He will follow out interesting indications of ore, on which the A. S. & R. Co. was working when the time came for the second payment. The body of ore originally developed by Mr. Bush and associates before they sold the property has been exhausted. It was stated yesterday by Mr. Hardy of the A. S. & R. Co.

"This consisted," he said, "of a lens 40 feet wide and 100 feet deep. We went through the ore body and beneath it in the hope of striking another. At the time of withdrawal, there were indications that there might be some other deposits of ore near by. Our experience with the Minnie bears out the experience on the Morgan and other properties that the Twin Buttes district is 'spotty'." The second payment due on the Minnie amounted to \$400,000. The A. S. & R. Co. was willing to proceed with the exploration of the mine, but not unless they were allowed to defer the payment. To this Mr. Bush was unwilling to agree. The price of the Minnie, together with other claims in the vicinity, was \$450,000, of which \$100,000 was paid down at the start. It is understood that the company took out \$200,000 worth of ore. John G. Baxter is a co-partner with Mr. Bush in this mine. The popula-

tion of Twin Buttes will stay with it. Mr. Bush is still operating the Glance mine, which he has under lease from the Twin Buttes company, so that there are three properties being operated where there was only two before. The total depth reached in the Minnie was 250 feet. The Guggenheims had it about eight months.

INDIANAPOLIS, July 28.—The second day of temperatures higher than 100 degrees throughout Indiana brought reports today of several deaths and many prostrations. The greatest death toll was at Gary, Ind.
